ADA Yapı Ürünleri San. ve Tic. Ltd. Şti.

Company Overview

Who We Are

- Has been founded -with more than 10 years of experience of its partners- in 2002 in Ankara/Turkey.
- Is representing worldwide construction manufacturers in Turkey and neighboring countries.
- Takes part in challenging projects to become the perfect solution partner for the contractors.

MARMARAY Bosphorus Tube Crossing Project , 2008-2013 (Waterproofing works of all stations):

Experience - Professionalism - Dedication

What We Do

- **Subjects:**

- Waterproofing
- Ground consolidation / injection / grouting
- Vibration isolation
- Interior Architecture
- Relocatable Membrane Structures
- Artificial Sport Facilities

- **Services:**

- Design and consulting
- Cost analysis and estimation
- Construction
- Import and export
- Installation and supervision

Experience - Professionalism - Dedication

Companies

BPA-GmbH

CSGROUP

getzner
the good vibrations company

Experience - Professionalism - Dedication

Companies - AGRU

AGRU Kunststofftechnik GmbH is a potential Austrian company with worldwide activities in producing and distributing HDPE-PP-FPO-VLDPE-LLDPE waterproofing membranes and high-quality plastic products for piping systems and apparatus engineering, environmental technology as well as constructional engineering.

Experience - Professionalism - Dedication

Companies - BPA

BPA-GmbH

BPA GmbH is an experienced German company in the fields of structural waterproofing, constructional joint sealing, tunnel sealing and refurbishment of concrete structures. BPA has the capabilities to develop bespoke project specific solutions to meet the customer requirements.

BPA has a wide range of products including injection hose systems, swellable bentonite waterstop tapes, coated steel plates, sealing tape systems, bentonite liners and various building chemicals.

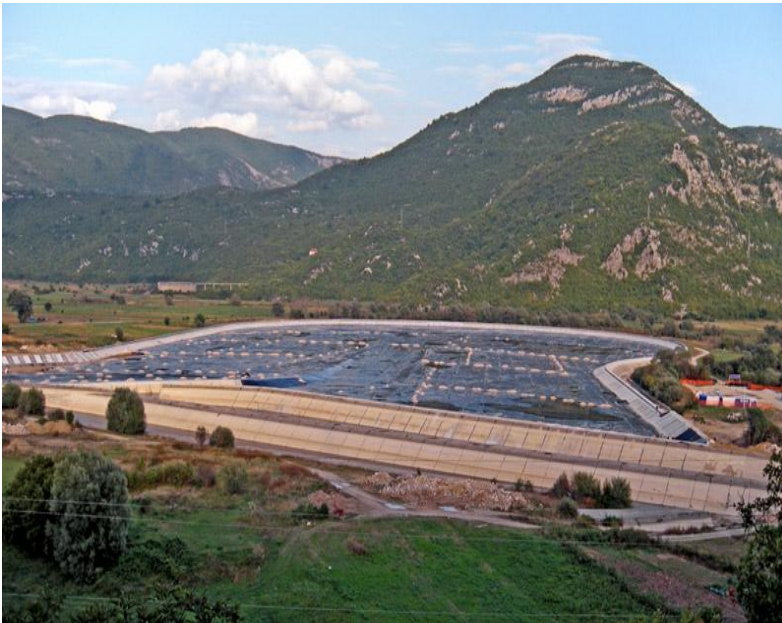

Experience - Professionalism - Dedication

Companies - GEOFELT

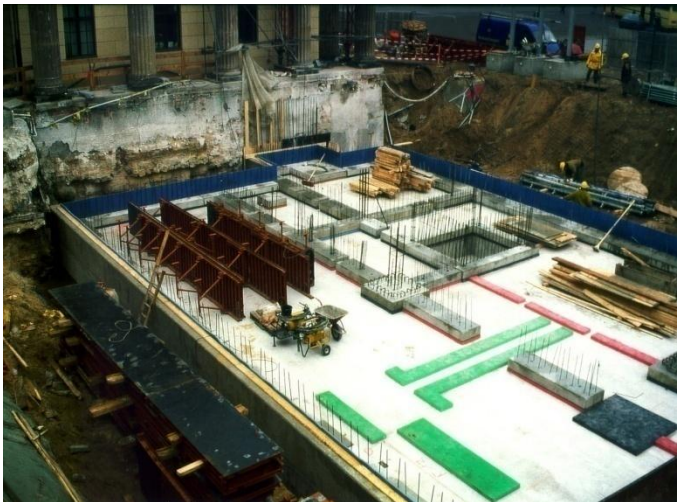

GEOFELT GmbH is an Austrian supplier in the geosynthetics market. With excellent engineering knowledge, a complete expertise in soil mechanics and precise specifications of materials, GEOFELT offers compact technical solutions for complex situations to construction market.

Experience - Professionalism - Dedication

Companies - GETZNER

GETZNER Werkstoffe GmbH is specialized in the field of vibration isolation in railway, industrial and construction applications. The company has been manufacturing materials for vibration isolation and mitigation since 1975 and is one of the leading companies in this field. The high-tech materials [Sylomer®](#) and [Sylodyn®](#) were developed by Getzner's own research team and are used in the construction of permanent ways for railroads, for the elastic mounting of buildings and equipment and as building components in the construction industry.

Experience - Professionalism - Dedication

Companies - LEXCAN

LEXCAN, based in Toronto/Canada as a division of Lexsuco Corporation, was incorporated in 1968 with the objective of developing and marketing new, state-of-the-art roofing and waterproofing technology. In conjunction with its sister company Lexcor, LEXCAN have pioneered the use of many modern commercial roofing and waterproofing systems, including EPDM, Modified Bitumen, TPO and fleece-backed membranes.

Experience - Professionalism - Dedication

Companies - PLASTISELL

PLASTISELL is the leading Italian PVC waterproofing membranes manufacturer. PLASTISELL manufactures PVC membranes for more than 20 years, since an improvement use of flexible geomembranes has started for waterproofing in construction sector (railway & highway tunnels, metro/subway, artificial lakes, foundations, etc.).

Experience - Professionalism - Dedication

Companies - SOTRAFA

Sotrafa, SA is a manufacturer of polyethylene sheets (LLDPE, VLDPE, HDPE, etc.), owned by Grupo Armando Alvarez, leader polyethylene film transformer in the Spanish market, and placed among the top European level and with an annual output of 300,000 tons. Our factory is located in Almeria, and presently export to over 43 countries, with an experience of over 30 years in the industry.

Experience - Professionalism - Dedication

TEXINOV was born out of the company “La Maille des Buisnières”, established in 1972 to produce run-resistant textiles for clothing and insect-proof nets for agricultural purpose. Following the market’s demand and using the high innovative potential of warp knitting technology, TEXINOV has developed technical textiles in new market sectors, such as civil engineering, medical and industry. At present, TEXINOV is known as being one of the European leaders in engineering and production of warp-knitted textiles.

Experience - Professionalism - Dedication

Companies - WEBAC

WEBAC is a leading German manufacturer of injection resins, floor coating systems and other construction chemicals since 1978. As a specialist for injection resins, WEBAC offers one of the most extensive and efficient product ranges of polyurethane and epoxy resins for waterproofing and crack repair world-wide.

Experience - Professionalism - Dedication

Companies - C/S GROUP

Construction Specialties Group manufactures and sells specialty architectural products internationally, with over 30 locations in 20 countries worldwide. Its products include interior wall and door protection, entrance flooring, expansion joint covers, louvers, grilles, sun controls, specialty venting and privacy track/curtains. The company serves architects and designers, building owners, facility managers and contractors.

Acrovyn® Wall Protection

Acrovyn® Wall Coverings

Acrovyn® Doors

Entrance Flooring

Expansion Joint Covers

Louvers

Grilles

Sun Controls

Cubicle Track/Curtains

Specialty Venting

Floorometry®

Solarmotion®

Experience - Professionalism - Dedication

Companies - Sprung Instant Structures

Starting with the manufacture of custom canvas products, including wall tents, mattresses and chuckwagon covers in the North American west, the Sprung family name has been synonymous with "innovative enclosures" since 1887. Today, Sprung structures can be found in hundreds of different applications for some of the world's leading industries and organizations. More than 12,000 structures continue to expand the vision established by the company more than a century ago.

Experience - Professionalism - Dedication

BRITON Engineering Developments Ltd was established in U.K. In 1979, and in that time has worked in the snow sports industry as well as other mainstream industries. However in the last 20 years it has been exclusively involved in snowsports, specifically in designing and building all season snow sport facilities. The company aims to provide outstanding snowsport experiences through innovative and original concepts incorporating the revolutionary **Snowflex®** system. The company's experience is based on continuous investment in research and development and its wide experience from approximately 200 existing projects.
